PARAGON SPRING COMPANY

Manufacturers of Springs, Wire Forms & Stampings, Est. 1945

4435-45 W. Rice Street • Chicago, IL 60651 • Ph 773-489-6300 • Fx 773-489-6356 • info@paragonspring.com • www.paragonspring.com

Paragon Stakes, Markers and Springs

Paragon Spring is a U.S. manufacturer and a premier supplier to arboreta, botanic gardens, conservatories, nurseries and universities internationally. Our products' quality exceeds standards set by high profile customers and are manufactured to last year after year.

Lengths, hole locations, material thickness and ends can be altered to meet your specific needs. Our staff will work with your curator or your plant records staff to determine what meets your current marking needs.

Above, stakes can also be used to hold roping. Left, stakes serve a dual purpose of supporting structures that protect against deer damage and identifying plantings.

Stakes

- Materials:** Cold rolled steel or aluminum
- Finishes:** Gloss, semi-gloss or flat black powder coated
- Bottom ends:** Straight or pointed angle
- Tops:** Loops, flattened loops, straight or angled
- Holes:** To specification
- Lengths:** To specification

Choose from different lengths, materials and ends
